Ladies' Rubber Soled Oxford Sunburn, sizes 3 to 7, per pair	1.10
Men's White Mule Work Shoes, size 6 and 7 only, Cleanup Price, per pair	1.39

This Store will observe the usual Wednesday afternoon half-holiday, commencing April 22nd.

## First Half Holiday

Wednesday, April 22nd

Commencing on Wednesday, April 22, the regular Wednesday half holiday will be observed by Champion merchants until further notice. Those interested are requested to govern themselves accordingly.

## Mrs. J. F. Price Speaker at W.I.

Mrs. J. F. Price of Calgary was the guest of the Women's Institute at their regular monthly meeting held at the home of Mrs. D. Farmer on Tuesday afternoon. Mrs. Price delighted her hearers with tales of early pioneer days in the west, comparing the honeymoon of today's bride with that of the McDougall women who started out in a Red River cart with buffalo robes for bedding. Not only is the Red River cart a survival of the early pioneer days but we have the Red River jig and the only folk song of the west the "Red River Valley" the latter was very sweetly rendered as a duet by Mrs. Chamberlain and Mrs. Orville Smith. The "Red River Jig" is a mixture of Indian Scotch and Irish, grown out of a pioneer country. Mrs. John Graham the first white woman born in the west was the daughter of one of the McDougall girls, and was born in the big house at Fort Edmonton. She received some of her schooling here and later went to Hamilton, taking three months to make trip home by backboard. It is difficult to imagine the feelings of these pioneer women who cried for relief at receiving a gift of apples once in seven years and ate potatoes once in two years. Frozen buffalo meat pemmican, and vinegar pie, was the menu for Christmas dinner. Skunk parboiled three times and then roasted, was considered a choice dish by the Indians, also boiled buffalo calf taken from the mother by the operation of Caesarian section. Eggs were \$2.00 per dozen, yet everyone managed to keep happy and homes glowed with the warmth of hospitality. Visitors outnumbered the members in attendance at this meeting. Following Mrs. Price's address the funds were augmented by the exchange of dress patterns and flower cuttings and all enjoyed the refreshments provided by Mrs. Cowell and Mrs. Dawson.

## Badminton Team Loses at Milo

Champion badminton artists journeyed to Milo on Monday and after the battle was over were forced to admit defeat by a score of 101 to 138. At the same time the whole trip was enjoyable in every way, and the visitors were entertained to luncheon after the game by the Milo players. The personnel of those taking part was as follows: Milo, Colley and Burdett, Watt and Berry, Spafford and Nelson. Champion: Geo. Campbell and D. Campbell, C. Starr and Stephenson, Anderson and Watts.

An auction sale of household effects will be held opposite the hotel in Champion on Saturday evening, April 25th, starting at 7 o'clock. The list will also include a large quantity of groceries, chickens, tools, a new wagon, etc. As the proprietor Lee Taylor, is quitting farming must be sold. A. Hopkins, Auctioneer.

Please leave all articles made out of flour sacks for Saturday at the telephone office not later than Saturday morning, so that they may be arranged for the inspection of the judges in plenty of time before the sale. Three prizes will be given.

## Carماغay Players Draw Good House

The Carماغay dramatic organization in connection with the girls' basketball team, which presented the comedy, "Anne What's Her Name" in the Community Hall on Friday evening April 10th, pleased a large audience successfully. The cast, under the direction of Miss Ima Mae Hummon, was a well balanced machine, showing careful training, with no weak spots. Miss Hummon's interpretation of Money, the temperamental maid, evidenced dramatic ability of a particularly high character; Mrs. V. L. Harper as Gran'ma aged 82, Mrs. Fern Walker as Aunt Julia and, of course the hero and heroine, Doral Hummon and Jean McEwen all deserved special mention, without casting any reflection on the other players who interpreted their different parts satisfactory to all concerned. Following is the cast of characters:

Anthony Wheat ..... Doral Hummon  
Burk, his valet ..... Burr Johnson  
Marjorie ..... Florence Collier  
Aunt Julia ..... Mrs. Fern Walker  
Barbara ..... Marjorie McDougall  
Money ..... Ima Mae Hummon  
Willie Peabody ..... Stanley McKay  
Doran ..... Odd Genesee  
Gran'ma ..... Mrs. Vera Harper  
Louise Byers ..... Martha Jensen  
Judge Bauby ..... Clarence White  
Doctor Aked ..... Robert Haldock  
Nancy Brown ..... Jean McEwen  
Ebenzer Whittle ..... Neal Oates  
Mrs. Ebenezer Whittle ..... Mrs. Fannie Messenger  
Two Little Whittles

## Death Removes Mrs. M. Galloway

The death of Mrs. Malvina Galloway, which occurred on Monday at six o'clock from heart failure, after a very short illness, removes another pioneer from the district.

The deceased was born in Laurence County, Missouri, in 1848, and was consequently in her 84th year. She was married to Francis M. Galloway at the close of the civil war, in which he had served five years. With her husband she moved to Alberta in 1905, and they homesteaded four miles north and one mile east of Champion. Her husband predeceased her in 1912, and since that time she has resided here with the exception of visits to children in Portland and Montana. She had always enjoyed vigorous health and had spent an extremely active life, and during her long residence here had made many friends who will regret her departure. She leaves four sons, Melvin M. of Lomond, Frank of Vulcan, C. W. and F. W. of Champion, living with the latter, and one daughter, Mrs. Grace Stone, Champion. There also survive a large number of grandchildren and great-grandchildren.

The funeral took place to the Champion cemetery on Wednesday from the Community Hall where service was held at 3 o'clock Rev. P. Dawson officiating.

The comedy, "Tons of Money," now under preparation by a local company under the direction of Mrs. R. I. Baker, will be presented some time during May. This will undoubtedly prove a treat as all the best talent in the community has been secured for the occasion, and special music will be furnished for the occasion by an orchestra directed by J. Geo. Harper of the Lethbridge Conservatory of Music.

## Champion Theatre

Saturday Nite, April 18th

Norma Shearer in

## "The Last of Mrs. Cheyney"

Men adored her—Women envied her. Through London's gilded society she swept, leaving a trail of broken hearts—and stolen jewels. Never has charming Norma Shearer had a role like this! The sparkling stage hit has been made into a picture filled with wit, unexpected happenings, gay scenes.

COMING NEXT WEEK

"Dynamite."

THURSDAY, Apr. 16, 1931

## NOTES AND COMMENT.

The Saskatchewan grain marketing act is providing an unusually juicy morsel for the lawyers, and opinions that the law is well within provincial powers and otherwise are obtainable upon the deposit of suitable retaining fees with outstanding legal lights. Between commissions to help make laws and courts to interpret them the rest of the people are left very much in the position of the principal actor in a snipe hunt.

A B.C. editor thinks one government for the Dominion located at Winnipeg would get rid of the burden of expensive legislation we are laboring under. Such an arrangement might lighten the labors of the supreme courts and privy council as they would have less legislation to interpret.

Among the solutions offered for the present depression in agriculture is collective farming more or less on the Russian system. Fortunately, perhaps the advocates of this idea are mostly theorists who, without any real knowledge of actual farming operations present a mathematical solution that works out nicely in their imaginary deductions. Farms are like everything else, the bigger they are the harder they can fall, and in actual experience they have mostly fallen hard. Every movement towards larger farms has ended disastrously for the country at large. It has led to vastly more expensive equipment, decreased the use of labor, and produced soil mining to what in the end must prove a fatal extent.

Sir Josiah Stamp, head of the investigation in dealing in wheat futures, is going to make short work of his job. Just around here we have discovered long ago that it is bad policy to buy wheat when it goes down or sell it extensively when the price has taken the up turn. It is to be hoped some one from here attends the sittings of the court of investigation and helps clear up the situation.

And now Dominion statisticians inform us the carry over of wheat in Canada will be something like 375,000,000 bushels, while feed grain is also present in quantities that seem unreasonable. However, the grain growing community have received so many successive shocks the nerves left are deadened to anything, no matter how extraordinary.

The work of three icebreakers this spring in clearing the St. Lawrence River of ice 10 days earlier than any previous year in history, has given rise to hopes that it will be possible to keep Montreal open as an ocean port from eight to nine months in the year instead of approximately seven. A new system of icebreaking was fol-

lowed and it resulted in the river being freed from all obstructions on March 10. The earliest opening on record prior to this was March 20, 1921. Buys and other aids to navigation were placed in the river as soon as the icebreakers declared the ship lane open and the St. Lawrence was officially reported as being ready to receive ocean liners as far as Montreal on April 1.

Gold in paying quantities was first discovered in the Yukon in 1881. In 1896 the phenomenal richness of Bonanza Creek was made known. The rush of 1898 followed and more than 30,000 persons poured into the district. Gold production leaped from one quarter of a million dollars in 1896 to ten million in 1898 and twenty-two million in 1900, since when it has fallen off gradually. Altogether the Yukon District has yielded more than two hundred and fifty million dollars worth of placer gold.

## Cutworms Expected In Considerable Areas

Farmers of south central, east central, and south eastern Saskatchewan, except extreme eastern edge, are being warned officially of a serious infestation of cutworms, in view of exceptionally mild winter and extensive dry areas last fall. Losses were severe at 45 points in these areas in 1930, some damaged over 50 per cent. Greater losses are expected in 1931 with average. Less serious trouble is looked for in an equal

area in central and western parts. The situation is thought to be serious also for 1931 in an Alberta area bounded by Stettler, Drumheller, Empress and Alaskan. Fields in these areas which are grazed, cultivated, or had loose dusty surface Aug. 1 to Sept. 15 are liable to have heavier damage this year.—Searle Grain Report.

## Grain Fair Buildings Under Construction

Excellent progress is being made on the erection of the \$200,000 building which will house the World's Grain Exhibition and Conference at Regina in 1932. Preliminary work on the site has been completed, a large amount of concrete work done and the steel framework is now being raised. The contractors state that they are well up to schedule. When the building is completed, about July 1 of this year, it will be turned over to the National Committee of the World's Grain Exhibition and Conference, and J. O. Turcotte, Dominion exhibition commissioner, will at once commence the work of interior decoration.

## Want Ads.

The Real Business Getters

## House For Sale or Rent

Four rooms, wash kitchen, basement and cement elctern. Stands on four lots and is fenced. Apply to owner, C. Rhodes, Champion.

## Rye For Sale

At Section 10-14-24, a quantity of Rye, good for feed or seed, at \$10.00 per ton. Stange Bros.

## Seed Oats For Sale

Good clean Seed Oats (no wild ones), for sale at Alf. Rodbuck's, Kirkcaldy. See sample in window in Chronicle Office. 3tp

## Mortgage Lifters

High-Grade Yorkshire Weaver Figs now ready for sale at \$2.25 to \$2.75 each. Albert Anderson's farm, 3 miles south and 41 miles east of Champion. P.O. Box K.

## Gobblers For Sale

Seven Gobblers, bred from Gort. banded stock, ready for inspection. First-class breeding stock. Apply to Mrs. H. C. Jopling, Phone 1206, Champion.

## Reward Wheat

Fourth Generation Reward Wheat for sale. Weighs 65 lbs. per bushel. Ripens six days ahead of Marquis and fully equal in milling quality. Fifty cents per bushel at the farm. Apply to B. H. A. McDonald, Phone 702, Champion. 2tc

## Potatoes

Netted Gem Potatoes for sale. Dorch Bros, Phone R2306, Vulcan. 8tp

## Flax For Sale

Good quality Primost Flax at \$1.25 per bushel. Apply to Fred Alder, Champion. 4tp

## WHAT'S THE AVERAGE TIRE MILEAGE ON YOUR FLEET?

WHATEVER mileage your business car or light trucks have been obtaining from standard tires, they'll surpass many times beyond the extra cost with Goodyear Heavy Duty Tires. Due to their special larger, stronger, Superstix tread combined with superior A.H. Weather Tread, Goodyear Heavy Duty Tires withstand the punishing effect of such service to a degree which is earning praise from all over the country.

We're proud to sell Goodyear Heavy Duty Tires. Let us put a set on one of your cars or trucks.

## A Trial Will Convince!

## Need For Adjustment Of Weights Of Hogs Marketed To Conform To Requirements

Time and experience are great teachers—but only for intelligent people. The official grades for hogs have been established a considerable length of time and production and marketing under the system have now been carried on during wide variations in conditions both as affecting production and the manufacture and distribution of the product.

For years conditions in production were such that producers were all the time inclined to put their hogs on the market in a somewhat unfinished condition. The results were, too big a percentage of light hogs and many otherwise good hogs within the prescribed weights yielding thin bellies. As the belly makes the valuable breakfast bacon this weakness in the product was important.

In a system of grading hogs alive the determination of whether a belly was finished or not was exceedingly difficult. However, comparisons of live gradings with dressed tests revealed the fact that most of the thin bellies came from the lighter hogs within the bacon grades. Therefore, to secure the proper quality in the high grade product, it was agreed to raise the minimum weights of the bacon grades ten pounds.

But producers were anxious to maintain the spread between the minimum and maximum weights of the grades and it was at the same time agreed that the maximum weights should also be raised ten pounds. Packers always recognized that the inclusion of these heavier weights within the better grades of hogs was a premium, because demanded for hams, backs or breakfast bacon for the domestic market or of Willshire side for the export market. As the weights of hogs from 220 to 230 lbs. yielded was very limited at the best prices. However, as the numbers of hogs in this great supply were not at the time in such great supply as to constitute a burden, the producers' requests were acceded to. And as long as these conditions prevailed no harm was done.

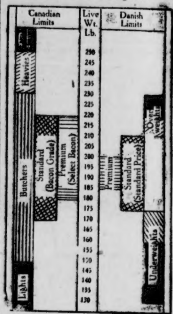

This year we have run into producing conditions which have proved that in the effort to correct the former condition the proper limit of weights was over-reached. An excess of weighty hogs in all of the three main grades has seriously affected the sale of the product and has been a very depressing factor in the market. It is also very dangerous from the standpoint of our prospective entry into the export market.

There is, therefore, a need for an adjustment of the weights of the bacon and select bacon grades to 180 to 220 lbs. at the farm or fed and watered, and of the butcher grade to 150 to 220 lbs. and when and if conditions should in the course of some years again make desirable the shifting of 10 pounds in the weights, it would appear reasonable that arrangements should be made so that this could be done expeditiously. But producers plead that there should be stability in the weights for each grade. Insistence on absolute stability would not work to the advantage of the producer or of the industry as a whole, but if this view is to prevail then undoubtedly the weights will require to be moved back to those that will, on the average, give the desired product, and be left there. The weights from 180 to 220 lbs. at the farm, or fed and watered, yield the Willshire cuts from 55 to 60 lbs. that are in demand and the weights of hams, bellies, backs and loins that are most desired by the domestic consuming trade. Then, when feeding conditions change and there is a tendency for considerable percentages of unfinished hogs to come to market, these will have to be excluded from

the higher grades by rigid grading of the lower weights for quality.

In connection with standards of weights the accompanying chart showing a comparison of ours with the Danish standards is very illuminating. The Danish standards, it will be noticed, are very much more than ours. Their standard grade is a live basis weight from 175 to 210 lbs. and their premium hog only from 185 to 200 lbs. The Danish count all hogs under 175 lbs. and over 210 lbs. These weights are calculated from dressed weights at the factory and would be for reasonably empty hogs. They would correspond more nearly to our weighted off car weights, which are ten pounds lighter than our farm or fed and watered weights.

### Hog Grades Compared

The chart compares the weight limits of the official grades of hogs in Canada and Denmark. It will be noticed that the grade equivalent to our "Select Bacon" for which the Danish pay a premium has a spread of only 15 pounds—from 185 to 200 lbs. against our 40 lbs. The Danish standard grade, equivalent to our bacon grade, has a spread of only 35 lbs. against our 50 lbs. There is no grade in the Danish system equivalent to the butcher, but the weights and underweights start directly from the standard with, in each case, a discount in price. The Danish grades do not provide any place for hogs under 130 lbs. or over 230 lbs.

### Fruits Are Preserved By Quick Freezing

And British Columbia Is Experimenting With Green Peas. Some interesting observation with respect to the application of "quick freezing process" to perishable fresh fruits and vegetables is contained in a recent news letter of the Dominion Cold Storage Branch. Tests recently made with peaches show that the process preserves all the original nutritive values and mineral salts with no evidence of loss of valuable chemical constituents or flavor. The process seems to keep the fruit absolutely fresh, in fact, 40 out of 42 "tasting tests" reported the "frozen" peaches more juicy, sweeter and of better flavor than that of "fresh" peaches. In British Columbia experiments are being made in the "rapid freezing" of green peas in small cartons. These peas will be held in storage at a temperature of 35 degrees Fahrenheit below zero until marketed next winter.

**United States Largest Cities** In 1920, the United States had 68 cities with a population over 100,000; the latest census gives 93; and these 93 contain more than one-fourth of the total population. New York City heads the list with its 6,958,792. The 10 largest cities are New York, Chicago, Philadelphia, Detroit, Los Angeles, Cleveland, St. Louis, Baltimore, Boston, Pittsburgh.

**Canadian Copper Ore** Copper ores of various kinds, including the native metal, are found at many places throughout Canada, but only the sulphide ores are commercially important.

The world's earliest farmers lived in the New Stone Age about 10,000 years ago.

The speed of light never changes; experiments indicate.

## Western Indians Are Raising More Stock

Industry Has Developed Rapidly In Last Few Years

The stock-raising and farming of the Indians of the western provinces has developed rapidly in the last few years, says W. M. Graham, Indian commissioner.

"Thirty-five bulls were purchased at Regina and 11 at Brandon, he stated, and a large number were bought at the Calgary Fair.

"These bulls are paid for from a fund created by the Indians themselves," he said. "Each Indian pays so much into the fund every time he disposes of an animal from his herd. It is well known that the Indians have some of the finest cattle in the Western provinces and have taken prizes at many shows held at different places.

"They own more than 20,000 head and dispose of between 2,000 and 4,000 head every year. The estimated calf crop this year is expected to be between 8,000 and 7,000 head.

## CHINESE MURDER MISSIONARY

Mrs. Victoria Miller of Glendale, Calif., who was one of two women missionaries reported murdered at Yanzao, China, while they slept, by a batchel blow delivered by discharged servants.

### Market in the Orient

Sees Solution Of Economic Problem In Trade With Asia

Asia was the unexploited part of the earth toward which industry should now bend all its efforts for marketing, R. J. Cronie, publisher of the Vancouver Star, declared before the Advertising Club of Montreal, recently. Bankers of the world should find a way of re-establishing silver at some definite level of value or giving Asiatic people currency that would be good for world commerce in order to facilitate their buying, the speaker declared.

"A sick world economically is no different from a sick industry or a sick financial institution, and there is little difference in the treatment required, except that to cure such conditions it is necessary to think in an international way. You and I, as individuals are helpless to restore the buying power of silver countries like China and India, which will in turn restore the buying power of Europe, and set in motion the huge surplusage that are piled up all over the United States and Canada. And the world's business depression will not be lifted until we start these surplusage moving," Mr. Cronie said.

### Spence and Rabson Come

The cones of the spruce hang down from the branches; those of the balsam fir (or "balsam") stand upright. The species are thus easily distinguished when the trees are bearing cones, states the Dominion Forest Service of the Department of the Interior. The two species mentioned are the ones chiefly used in the manufacture of wood-pulp.

### A New Life-Saver

Among the new life-saving apparatus to aid people at sea is a specially designed halma wood float which is provided with a hole through its center, permitting the float, to be slipped over the barrel of an ordinary shotgun using a blank cartridge. The float can be projected accurately to a drowning person 150 feet distant.

The human body is 60 per cent. water.

### Water Peace Prize

Sir Eric Drummond Is Awarded Prize For 1931

Sir Eric Drummond, secretary-general of the League of Nations, announced his acceptance of the Water Peace Prize for 1931, awarded by the Carnegie Foundation.

Sir Eric asked the directors to present the accompanying money award of approximately \$12,500 to some institution furthering the ideals of the league. Thereupon it was awarded to the International Federation of Nations Associations at Brussels.

Nearly \$30,000,000 has been expended by the city of Oslo, Norway, in recent years, in municipal housing construction.

### LOST ON NAUTILUS FIRST SEA VOYAGE

Willard Grimmer, quartermaster aboard the "Nautilus" submarine in which Sir Hubert Wilkins made an expedition under the north Polar ice, who fell overboard from the undersea craft and was drowned at the entrance to New York Harbor, upon the submarine's first sea voyage. He is shown above pointing out interesting features of the "Nautilus" to his young wife just prior to the craft's sailing for Camden, N.J.

## Splendid Services Of The Community Doctor In West Noted By American Investigator

### Demand For Better Beef

Well Finished Young Cattle Means Money To The Producer

The beef grading service of the Dominion Department of Agriculture, which is closely in touch with consumer preference for beef, recently stated: "One thing clearly apparent in the market at the present time is the demand for better beef." The market preference today, the Department adds, is for well finished young cattle weighing around 800 to 900 lb. live weight, dressing out around 525 lb. This type of animal, properly finished, means money to all concerned.

### Skill Of Modern Surgery

Young Man Born Blind Recovers His Sight

The skill of modern surgery has brought the wonders of sight to Earl Muselman, 20-year-old student at the Pennsylvania institute for the blind. Born without pupils in his eyes he had never seen the light until recently, when, weeks after a delicate operation had been performed, the bandages were removed from his eyes. He could see, after a life of darkness.

### Winnipeg Newspaper Union

(By Anette)

No rural municipality which had adopted the municipal doctor system has gone back to the private practice basis.

### Preference For Canadian Wheat

Britain May Make Offer Of Coal In Exchange For Wheat From Dominion

Quota preference for Canadian wheat in the British market in exchange for a Canadian market for British anthracite coal will be one of the proposals advanced by the British Government at the Imperial Conference to be held in Ottawa during the summer, according to an editorial forecast in the London Daily Express.

"Well done, Socialists," comments the editorial, in reference to the presumably reliable report that the Labor Government intends to give the British farmer a quota on his wheat. Under the proposed scheme the use of at least 10 per cent. British flour in all bread would be made compulsory. But the newspaper anticipates the government will not stop there.

"They have every intention," it says, "of going to the Imperial Conference at Ottawa this year, determined not to repeat last year's fiasco. Canada too will be offered a wheat quota. The price of wheat will be a Canadian market for British anthracite coal."

### Canadian Cheese, Milk and Ice-Cream

The consumption of cheese, milk and ice-cream is increasing in Canada. In 1921 the average used per head of population was 231 pounds of cheese; 240.1 pounds of milk; and 5.26 pints of ice-cream. In the following seven years this increased to a per capita consumption of 254 pounds of cheese; 470.8 pounds of milk; and 7.60 pints of ice-cream.

### First Woman Flier

The first female aviator was Miss Maudie or Maude. She was joined the painter Pictet aboard a balloon, called the Gustave, which ascended at Lyons, France, on June 4, 1784, in the presence of the royal family of France and the King of Sweden.

"That racial boy of mine didn't want his dinner! So to punish him I sent him to bed without it!"—Moussique, Chatterbox.

## BANK CREDIT FOR FARMERS UNDER REVIEW

Ottawa, Ont.—The way has been opened for closer co-operation between the banks and the farmers, declared Premier J. E. Brownlee, of Alberta, commenting on the conference held here between representatives of the chartered banks, Dominion Government, and governments of the three prairie provinces. Matters relating to bank credits, especially as they affect farmers of the west, were discussed. Only the broad principles relating to credits were under review. Premier Brownlee said he was satisfied with the results and was hopeful that the basis of a working agreement would be established. He intimated there will be further conferences held between the provincial governments and western executives of the banks.

Although no official statement was issued after the conference, it was understood the bankers intimated their intention to instruct local managers in the west to take into consideration to farmers whose loans mature and who are not in a position to meet them.

It also was understood the bankers promised consideration to representations made concerning loan rates. Farmers, it was believed, would be able to obtain money at reasonable rates of interest. Premier R. B. Bennett represented the Dominion at the conference; Premier J. E. Brownlee the Alberta government; Hon. M. A. Macpherson and Hon. W. Smith, Saskatchewan, and Hon. R. A. Hoey, Manitoba.

The banks of Montreal, Royal, Nova Scotia and Commerce were represented.

## Graf Zeppelin Starts On Extended Journey

Twenty-Five Passengers Take Trip To Egypt and Palestine

Friedrichshafen, Germany.—The Graf Zeppelin has set out on a Mediterranean trip to Egypt and Palestine with the intention of doing what was forbidden in March, 1922. The Graf this trip has permission to land at Cairo and let its passengers look around a bit, but two years ago when a similar trip was projected, it was understood that the British government had entered their objections to passing over Egypt.

There were 25 passengers aboard, among them Flight-Lieutenant Fred Booth, who commanded the R-100 on its flight to Canada. Dr. Ecker is in command.

## Wins Grand Championship

Evelyn McMahon Wins With Entry At Stock Show In Edmonton

Edmonton, Alberta.—The thirteen-year-old girl exhibitor, carried off to Edmonton spring show on Thursday, April 8, Evelyn McMahon, of Gadsby, 13-year-old girl exhibitor, carried off to the high honor, an exceptional achievement. Reserve grand champion went to George Tait, and Sons, of Brandon, on a steer with a winner from the herd of Mackenzie Brothers, of Lacombe, a close runner up.

Little Miss McMahon had already won the Prince of Wales challenge shield, Edmonton exhibition trophy and \$150 in cash prizes.

## Royal Gun Commission

Chief Justice Brown May Be Appointed To Represent West

Ottawa, Ont.—Chief Justice J. T. Brown, of the Court of King's Bench, of Saskatchewan, is likely to be the third member of the Royal Gun Commission to inquire into trading in furs. Chief Justice Brown would represent the prairie provinces. Sir Joseph St. Laurent, eminent London (England), economist, has been named as chairman of the commission. The representative of the Gun Exchange will be W. Sanford Evans, Winnipeg, whose selection has already been approved.

President of the Rifle Association

Ottawa, Ont.—At the annual meeting here of the Dominion of Canada Rifle Association, Lieut-Col. D. R. Street, of Ottawa, was elected president. He succeeds Brig.-Gen. J. Duff Stuart, of Vancouver. Proposals for increasing the prize money for rifle matches to be held at Comnaught Ranges next August were approved.

W. N. O. 1855

## Chicago's New Mayor

Mayor-Elect Cermak Bus With Re-Organization Of Municipal Government

Chicago.—Spontaneous re-organization of Chicago's municipal government was promised by Mayor-elect Anton J. Cermak.

The new mayor will have a working majority in the city council, composed of the victorious victors which accompanied his own success. Thirty of the city's 50 aldermen are Democrats. Nine of the 20 Republicans were elected as allies of Mayor Thompson.

"What are you going to do about Al Capone?" British reporters asked on the phone.

"I understand he is out of town," replied Cermak, "and my advice to him is to stay out for the next four years." He is under sentence here you know, and I suggest that he stay in Florida, that's where he belongs now."

Cermak laughed when the London writers asked about Thompson acting on the King.

"He didn't really fool you people, did he?" asked the mayor-elect. "No, he isn't really anti-British. The British vote is the smallest in Chicago. I don't intend to pick on the British King. No, I haven't anything against King George or any other king."

## Importance Of Wheat Conference

Robert Gardiner Says Hopes Of Western Agriculture Depend On Outcome

Calgary, Alberta.—Upon the outcome of the wheat conference in London, England, next month, the hopes of western agriculture depends, according to Robert Gardiner, U.P.A. president and member of the Progressive group in the House of Commons. Much will depend upon the mutual arrangement for the division of available markets. The solution, he thought, would be an arrangement by Canada, United States, Russia, Argentina and Australia to permit orderly marketing of the export surplus of each of these countries to their mutual advantage. If this developed, involving development of centralized marketing from Canada, possibly under government auspices.

The other alternative would be a compulsory pool. Mr. Gardiner said, although he had been opposed to this method.

## Reduced Railway Fares

Drastic Cut For Summer Week-Ends Trip Is Announced

Montreal.—Drastic cuts in fares on Canadian railroads for the summer week-ends were announced by C. T. Riddell, chairman of the Canadian Passenger Association, after a series of conferences. The new scale will take effect May 1, and will continue through June and July. The new round trip fare from Friday night to Monday morning will be only one and one-quarter times the present single fare.

The reduction will be of special benefit to those wishing to visit the new week-end trip will be only \$4.35.

The reductions will apply between all stations in Canada and will commence with the first week-end in May.

## No Cancellation Likely

Serious Hardships Would Attend Reduction In Air Mail Service

Ottawa, Ont.—It is unlikely there will be any cancellation of existing air mail contracts it was stated on excellent authority here. The need for exercising economies in the post office department, coupled with the necessity for overhauling some of the \$5,000,000 deficit with which the department completed the fiscal year, had given rise to the expectation that the government would reduce some of the unremunerative services, in which category the air mail service is understood to fall.

Cancellation of the contracts, however, would have entailed considerable hardship inasmuch as in the execution of a continuance of the service, several companies had incurred large capital expenditures in establishing air transportation organization.

Hanger To Be Rebuilt

Winnipeg, Man.—Plans for rebuilding of the Western Canada Airways hanger here, destroyed by fire a short time ago at a loss of about \$200,000, have been completed and tenders on the construction called for. The new hanger will be about the same size as that destroyed.

## Cost Is Prohibitive

Winnipeg-Calgary Air Mail Letters 837 Each Is Reported

Calgary, Alberta.—Air mail letters between Calgary and Winnipeg are costing on an average \$37 each, according to statements made here by G. D. Stanley, M.P. for Edmonton, who has just returned from Ottawa.

Government investigations have revealed the prohibitive cost of the present air mail service, he said, and these surveys show that Calgary sends two letters by air for every one sent by Winnipeg.

## Canadian Wins Medal

Honor Goes To Deputy Minister Of Department Of Mines

Ottawa, Ont.—A signal honor has been conferred on Dr. Charles Campbell, deputy minister of the Department of Mines. A cable from London announced that he had been awarded this year's gold medal by the British Institution of Mining and Metallurgy. One medal is awarded each year to the person without regard to nationality, whom the institution decides is the most deserving.

## ARGUE QUESTION OF RESOURCES COMPENSATION

Ottawa, Ont.—The amount of compensation to be paid to Saskatchewan and Alberta by the Dominion for alienation of their natural resources from 1900 to October 1 last, the date of return, may be decided upon by the same commission for both provinces. This suggestion, it is understood, was under consideration at a meeting between a Premier R. B. Bennett; Hon. T. G. Murphy, Minister of Interior; Hon. M. A. Macpherson, Attorney-General of Saskatchewan, and Premier J. E. Brownlee, of Alberta. No official statement, however, was made.

Under the respective agreements between the Dominion and the two provinces, entered into more than a year and a half ago, the amount of compensation to be paid to Saskatchewan and Alberta for alienation of their natural resources was not fixed. Commissions were to be appointed and, in the case of Alberta, the commission was named, but no suit was taken in regard to Saskatchewan. What the personnel of the commission will be, and whether the same body is to function with regard to both provinces is uncertain at this time. It is understood that such a suggestion is acted upon.

Further discussion will take place on this point and in the matter of the turning over by the Dominion of certain records to these provinces. In addition, Saskatchewan has an appeal pending before the judicial committee of the privy council asking for an accounting by the Dominion in respect to the administration of that province's natural resources prior to 1905.

## RUSH ANTIOXIN BY PLANE

Chief Pilot Joe Croson (in fur flying kit) of the Alaskan Airways,

leading antioxin aboard his fast mail Stearman plane before making a dash to Port Burrow for the relief of diphtheria-stricken Eskimo residents. Three are reported as already seriously stricken with the disease.

The plane was commissioned for the flight by Alaska Territorial Health Commissioner Dr. Vignone.

Dr. Henry Greiss, Presbyterian missionary physician at Barrow, performed the inoculations.

## SAYS RUSSIA DOOMED

Is Too Dangerous

London, England.—John Westgate, of Liverpool, who is an officer of the National Association of British and Irish millers, is inclined to doubt the report that the government is considering the imposition of regulations to restrict the millers to take 15 per cent. of requirements from wheat growers in the United Kingdom.

"It is perfectly certain that no legislation is possible without the millers' agreement," said Mr. Westgate, in an interview with the Manchester Guardian. "The quota system is far too dangerous to be acceptable."

And the English wheat policy at present is insufficient to constitute a 15 per cent. quota.

## Projects For Churchill

Two Millions Dollars Worth Of Building Material Being Assembled

The Pas, Man.—Two million dollars worth of building material is being assembled and plans are under way for the employment of 1,000 men for work on the 2,000,000 bushel elevator project at Churchill, terminus of the Hudson Bay Railway.

Material is being assembled in Winnipeg and 30 trains of 40 cars each will be required for the shipment of steel and equipment to Manitoba's seaport. Work on the elevator project will be well underway by July 2, contractors stated.

Churchill will have its first hotel this summer and the first hotel shipment of grain will be made from the port in September, according to Hon. D. C. McKemie, Minister of Natural Resources. No "boom" conditions will be permitted.

## Soviets Extending Air Service

Amblitious Civil Aviation Program Announced By Government

Moscow, Russia.—Coincident with the opening May 1, of several Russian passenger and mail aéro lines, the Soviet Government announced an ambitious civil air program. Some 25,000 student aviators are in training and a total of 372,000,000 rubles has been budgeted for civil aviation in 1923. Plans call for extending the passenger and mail lines over 25,000 miles and installing fifty new aerodromes and 250 landing fields.

Vicount Secures Motor License

Ottawa, Ont.—Viscount Dunsborough, son of the Earl of Dunsborough, lost no time on his arrival in Ottawa in securing his license to operate an automobile. The Governor-General and his family arrived at Rideau Hall shortly before noon. Four hours later, the viscount secured his license.

## Doubts Quota Policy

British Miller Thinks Wheat Scheme Is Too Dangerous

London, England.—John Westgate, of Liverpool, who is an officer of the National Association of British and Irish millers, is inclined to doubt the report that the government is considering the imposition of regulations to restrict the millers to take 15 per cent. of requirements from wheat growers in the United Kingdom.

"It is perfectly certain that no legislation is possible without the millers' agreement," said Mr. Westgate, in an interview with the Manchester Guardian. "The quota system is far too dangerous to be acceptable."

And the English wheat policy at present is insufficient to constitute a 15 per cent. quota.

## Anglo-German Conference

Matters Of Vital Importance Will Be Discussed

London, England.—Matters of the utmost importance in European politics will be discussed from June 15 to 20, at the Anglo-German conference, Foreign Minister Jules Jusserand, of Germany comes to England for a conference with Premier MacDonald and other British statesmen.

Among the questions expected to be considered are general disarmament, the situation in relation to the German conference early in 1922, and the Austro-German economic pact.

Official British circles take very keenly the suggestion that other powers had been somewhat ruffled by the exclusive nature of the conference.

## WIDER POWERS ARE SEEN FOR THE DOMINIONS

Ottawa, Ont.—Statute of Westminster has been approved by representatives of the nine provinces of Canada. A section of this proposed act, however, will contain definite safeguards of the Canadian constitution. This section, which was left to Canada to draft, ensures that the Statute of Westminster cannot repeal or amend the British North America Act.

This was the last result of the Dominion-Provincial conference which concluded here. An official statement, handed out after the conference, announced that a final draft of the Canadian clause in the Statute of Westminster was now in the hands of the Dominion government. While approved by the conference, this draft would be taken home for submission to the provincial governments. Two weeks has been allotted for discussion by the provinces.

Now that the clause is under consideration, the question of any fears that the B.N.A. Act might be altered by the Statute of Westminster, the question of the B.N.A. Act can be changed as the occasion for amendments develops it to be taken up at some further conference in which the Dominion and the provinces will take part. This was announced by Premier Bennett.

Many changes to the act, which is Canada's constitution, defining provincial and Dominion rights, have been made from time to time, but the parties are for the most part in agreement that where a change of importance is to be made, all the provinces must consent. The conference will seek to reach at the most satisfactory method of making changes.

Adherence to the Statute of Westminster means widened jurisdiction for the Dominions of the British Empire. It provides that Dominion laws may have extra-territorial laws. It declares the Dominions will no longer be subject to British statutes unless they so desire. It repeals the Colonial Laws Validity Act. It gives legal approval to the claim of the Dominions to equality of status in the British Commonwealth.

If the provinces approve of the clause which was agreed on at the conference, the next step will be taken by the Dominion Government at the present session of parliament. A resolution or bill will be introduced expressing Canada's adherence to the statute. The Imperial conference of last year agreed that the Dominions should express their attitude toward the statute by August. If there is general agreement, the Imperial parliament will be asked to give the Statute of Westminster.

## ALBERTA WILL APPEAL DECISION ON FRAUDS ACT

Ottawa, Ont.—Alberta, supported by Ontario, will carry the Privy Council an appeal against the decision of the Supreme Court of Alberta, holding the Alberta Fraud Act unconstitutional.

Act ultra vires in part. Intimation to this effect was made here by Premier J. E. Brownlee, of Alberta, and Hon. W. S. Price, attorney-general of Ontario.

Legislation in question was enacted by the Alberta legislature following the meeting of attorneys-general of the various provinces, convened in Toronto more than a year ago at the instance of Attorney-General Price to consider steps to prevent defrauding of the public.

Representations were also made by the attorney-general of various provinces to the Dominion Government, seeking to have the Statute of Companies Act amended so as to give the provinces the same control over stock companies. That the Dominion chapters as they have in respect to stock sold in companies involved in provincial laws, consideration to the representation of the provinces was promised.

## Study West's Needs

Would Appoint Commission To Investigate Conditions In Western Canada

Winnipeg, Man.—Constructives of the legislature, opposed to a government-sponsored resolution that would have a study of the West's economic needs, announced an amendment would be placed before the House asking for appointment of a commission to make a study of the West's economic needs. John T. Haig, Conservative member for Winnipeg, said his resolution would request the legislature to recommend to the Dominion government that a commission should be established, similar to the Duncanson commission in the Maritime provinces, to investigate as specifically as possible conditions in Western Canada, with particular reference to the cost of production of farm products.

Freight rates close to western consumers of goods purchased by them; interest rates on loans and debt; and adjustment would also be points of examination.

In the event of the Dominion government failing to appoint a commission the resolution urges that the British Columbia, Alberta and Saskatchewan governments be approached with a view to the appointment of a commission by the western provinces.

## Has Audience With Emperor

General Sir Arthur Currie Received By Japanese Ruler

Tokyo, Japan.—General Sir Arthur Currie, war time commander of the Canadian Corps and now principal of McGill University, Montreal, has granted an audience by the Emperor of Japan. Sir Arthur has sailed from Japan for Vancouver on his return home after an absence of several months.

Sir Arthur spent many weeks in England before proceeding to India, where he represented the Dominion at the formal inauguration of the new government buildings at New Delhi, February 10, and unveiled a Canadian canon. He then came to the Orient. His long tour has been mostly in the interest of his health.

## Borrowers In Difficulty

Montreal.—Farmers who have attempted to business are all right, only the farmers who have borrowed money are now having interest charges to carry for having sought a short-cut to prosperity through a broker's office are in serious trouble. Senator D. E. Riley, High River, Alberta, rancher, said on reaching this city.

## Old Age Pensions

Winnipeg, Man.—Old age pensions will be paid in full in Manitoba this year regardless of whether or not Prime Minister R. B. Bennett implements his promise for the Dominion to pay the full cost of the act, it was declared in the legislature by Hon. W. J. Major, attorney-general.

## Plane Fleets Flight

Tokyo, Japan.—Captain Thomas Hall, arriving in Japan aboard the liner "Hudson," announced he had hopes of obtaining the use of the airplane of Harold L. Bromley for a projected non-stop flight across the Pacific.

The U.S. government maintains 93 schools for natives in Alaska.

## CHAMPION CHATTER

Vol. 4 Thursday, April 18, 1921 No. 17

Published in the interests of the People of Champion and Farmers of the vicinity.  
GEO. L. DEPUÉ, Editor.

**HOT STUFF!**  
Mechanics Professor—Describe the mechanism of a steam shovel. Frosh Engineer: "Don't kid me. You can't get steam on a shovel."

The Mr.-Dr. harrow plow marks another stride towards lower production costs. It reduces the time required to get wheat ground ready, at the same time reducing the amount of labor required by eliminating one or more operations formerly necessary to get the ground ready for seeding.

Fun is like insurance—the older you get the more it costs you.

The bride and groom arrived at a fashionable hotel on their honeymoon. The room they

"Good Equipment Makes a Good Farmer Better."

occupied was furnished with a pair of twin beds. Upon seeing them the bride immediately began to cry, and the groom said: "Why, dear, what is the matter?" "Why," said the bride, looking at the twin beds, "I thought we were going to have a room all by ourselves."

Our sincere sympathy goes out to the Galloway family in their recent sad bereavement.

Our repair service must be good. Last week two farmers drove in from outside our territory to select parts from our complete stock.

I never see a horsefly; I never hope to see one. But from the many jokes I hear, There certainly must be one.

We have a real buy in used tractors. "So you make love to

Irene every chance you get, do you?" "Yes, and you would too, if you felt about her the way I do."

A newspaper offering \$1.00 each for "Embarrassing Moment" letters received the following epistle: "I work on the night shift in a steel plant. I got home an hour early last night and there I found a man with my wife. I was very much embarrassed. Please send me \$2.00 as my wife was also embarrassed." The editor of the newspaper sent the contributor a cheque for \$3.00, saying that the other man too may have been embarrassed. This wasn't the Champion Chatter folks so don't get all excited.

their own families, and no parent would give their child anything of a harmful nature.

Dr. Fraser Smith will give an address on India at the close of a social hour at Blusson school on Thursday evening. Social hour commencing 8:30 sharp.

Three quarters of our northern area of land is undeveloped and this is chiefly marginal soil, with local areas of very good soil in it. The aims of the soil survey are to find the land most suitable for agricultural development and to investigate the best methods of handling this land when it is settled. The information compiled in the reports of soil surveys all ready carried out in Alberta is of inestimable value to the man who is contemplating taking up land in those districts, and if he follows the advice given he will make very few mistakes in the selection of his land.—University Letter.

Stocks of Wheat Highest Ever Known

The total stocks of grain in Canada at March 31, 1921, were higher than in any previous year at the same date. The quantity of wheat in Canada was 275,100,087 bushels, considerably higher than the figure of 228,646,387 bushels on March 31, 1920. These figures are based on returns received by the Dominion Bureau of Statistics from elevators, flour mills, railway companies and crop correspondents.

## Local and General

Barbara Dow is in the Vulcan hospital receiving treatment.

Mrs. C. Williamson, who has been seriously ill, is improving.

Mr. and Mrs. Irl Ditto moved to the farm last week for the summer.

Mrs. H. Selland is ill, and was taken to the Vulcan hospital early in the week.

J. Ledgerwood left for Port Arthur, Ont., on Thursday, where he will visit for a time.

Mrs. Carlson and Miss Margaret Carlson are home after spending several months at the coast.

Mr. and Mrs. J. N. Beaulieu and Mr. and Mrs. Chamberlain motored to Calgary and Beiseker last week.

Elliott & Matlock shipped two cars of hogs from here on Tuesday, and two cars from Carmangoy on Monday.

Mrs. J. F. Price of Calgary was the guest of Mrs. J. N. Beaulieu while in town attending the W.I. meeting.

Miss Sylvia Matlock arrived here from Tacoma, Wash., on Monday, to visit with her grandmother, Mrs. J. H. Matlock.

Dr. Fraser Smith an honored retired missionary will give an address on China in the United church Tuesday afternoon April 21st at 3:30 o'clock. All are welcome.

F. J. Clapp has some attractive lines in Kiddies' "Playall" suits, boys' pants and shirts which are well worth investigation. See advt. elsewhere in this issue.

Mrs. Dan Harper and son left for Vulcan on Wednesday to join Mr. Harper who has been located there for some time. Mrs. Harper will be missed by many friends.

J. Farries, accountant in the Canadian Bank of Commerce at Two Hills, Alta., was a visitor with his brother, R. D. Farries of the school staff, during the week.

Seeding has made considerable progress during the week in spite of very windy weather, which made things highly unpleasant for everybody. Quite a number of farmers already report impressive acreages sown.

You do ever get a letter worth \$20,000 or pearls worth \$250,000? See what Norma Shearer did with them in "The Last of Mrs. Cheyney."—April 18th.
